

The Women's Symposium of Southern California (WSSC) is a non-profit 501(c)3 agency with a mission to help women achieve financial literacy and enhance their self-confidence and quality of life.

WSSC Overview: To help women achieve financial literacy and enhance their self-confidence and quality of life by providing a forum for educators and financial professionals to deliver knowledge and personal experiences to the community at an annual symposium to honor International Women's Day. International Women's Day is an important opportunity to celebrate the social, economic, cultural and political achievements of women and declare bold actions to take to help progress the gender agenda because purposeful action can accelerate gender parity across the world.

WSSC Goal: WSSC engages and collaborates with professionals in a variety of fields of expertise to deliver "how to" information on career and personal lifestyle issues. Details of financial, career, and family planning can be confusing. The Women's Symposium is a forum for discussion around applicable best practices and trends today. WSSC also wants to build out The Southern California Calendar of Events for Women locally to help promote other like-minded organizations and enhance dialogue and experiences that correlate with our mission to help women through education.

WSSC Driving Principles: • Financial literacy • Personal empowerment • Advocacy of STEM education • Gender equality on compensation and civil rights • Integration with Similar-focused Public and Private Partnerships • Promote business and industry engagement in Financial Literacy
